elmeg T100

Key extention for elmeg IP120, IP130 und IP140

The elmeg T100 modules are keypad extensions for elmeg IP120, IP130, and IP140 IP system phones. The black color version of the T100 matches the IP120 and IP130, the silver color version matches the IP140.

Product description

The elmeg IP120 accepts up to two T100 modules. The elmeg IP130 and IP140 accept up to three T100 modules. Power over Ethernet (PoE) can power as many as two connected T100 modules. A plug-in AC adapter is required to power the third connected T100 keypad extensions. The required plug-in AC adapter is included with elmeg IP phones.
